PRO SCALE DESIGN

Pro Scale combines pro-level performance with the look and feel of a real Ford Raptor R. The Raptor R stops the show with a Ford-licensed body and molded replica parts for maximum scale authenticity. Velineon brushless horsepower and an extreme heavy duty 4WD driveline give Raptor R performance credentials to match its stunning looks.

EXTREME HEAVY DUTY UPGRADES

Extreme Heavy Duty Upgrade Kit comes pre-installed on Raptor R to withstand the brutal punishment of high-power brushless systems. Made from the toughest cold-weather material, Raptor R's driveshafts and suspension components are beefed up with extra material and overbuilt construction to form a nearly indestructible driveline.

CLIPLESS BODY MOUNTING

High-flying stunts and 60+mph desert speed runs won't upset Raptor R's tough clipless body. Locking tabs hold the body tightly, but release in just seconds to access the chassis. Raptor R's hidden latching system maximizes convenience and scale realism by removing traditional body clips which would interrupt the body's clean lines.

- Officially licensed Ford F-150 Raptor R body
- Molded replica scale details
- Clipless body mounting system
- LED lighting in front and rear bumpers
- Extreme heavy duty upgrade kit installed
- VXL-3s waterproof electronic speed control
- Cooling fan with large heat sink
- Up to 60+ mph with 3s LiPo battery
- Traxxas Stability Management (TSM)
- TQi 2.4GHz high output radio system
- Oil-filled ultra shocks
- Extended modular composite tub design chassis
- Chassis-mounted 2075 servo
- Full-time shaft-driven 4-wheel drive drivetrain
- Licensed Ford Factory option wheels
- Licensed BFGoodrich All-Terrain T/A KO2 tyres
- Sealed ball bearings
- Rust-resistant black oxide coated Hex hardware
