£349.99

105237-4

Copper / Green / White / Blue / Red / Black

HIGH-ANGLE STEERING

4-Tec Drift provides over 60° of steering angle at full lock to enable big sideways drifts and quick transitions. The front suspension is specially tuned for drifting with new steering blocks, bellcranks and a drag link optimized for maximum throw.

CUSTOMIZABLE DRIFT MODES

Only 4-Tec Drift lets you choose between three customizable drift modes. Innovative TSM Drift technology replaces old-fashioned drift gyros with smooth precise control that can be fine tuned with the Traxxas Link app. New drivers can drift like a pro without knowledge or skills, and advanced enthusiasts will enjoy the refined controls for even smoother performance.

Electronic Handbrake

INCLUDES WIRELESS MODULE

A Traxxas Link Wireless Module is included to harness the full potential of 4-Tec Drift's powerful TSM drift modes. Use the full-color graphical interface to personalize the 3-channel TQi radio's settings and unlock its advanced tuning features. Tap the handbrake button on the side to initiate rotation and begin your drift.

- Licensed Ford Mustang clipless body
- Grille, splitter, hood vents, side mirrors and spoiler
- Replica brake discs with red calipers
- Waterproof electronics
- TQi 2.4 GHz radio system with wireless module
- 5-channel micro receiver with fail-safe security
- Traxxas stability management with 3 drift modes 1. TSM Drift Mode / 2. TSM Mode / 3. Gyro Mode
- Digital high-torque ball bearing 2075 servo
