1/10 High Performance Race Boat
Brushless Outrunner Motor
VXL-4s Marine ESC
2s-4s LiPo (not included)

£409.99

106064-4

Pink / Green / Orange / Blue

RAPID RIGHT SECURITY

There's no need to back off the throttle or tone down the fun with Disruptor's Rapid Right security. Take full advantage of 4s Velineon brushless horsepower anytime, anywhere. If Disruptor should land upside down, applying reverse full throttle rights the boat almost instantly and gets you back in the action.

AGILE HANDLING

Disruptor's perfectly sized hull delivers agile handling for tight turns with equally impressive 40+MPH speed. A new low-CG design concentrates weight inboard along the centreline for perfect weight distribution. Hammer the throttle and Disruptor gets on plane quickly with lightning-fast reflexes and high-speed stability.

NEW 4S POWER SYSTEM

The Velineon VXL-4s Marine brushless power system is a clean-slate design optimized to deliver maximum thrust on a single 4s LiPo battery. The all-new brushless outrunner motor is a model of efficiency and power, combining thunderous torque with high-RPM speed. Two independent water cooling systems keep temperatures in check for maximum run time.

- 26" High-performance deep-v hull
- Pre-applied graphics
- Rigid injection-moulded clipless hatch
- Foam seal to repel water
- 40+mph with single 4s LiPo battery
- Full-size 2-channel TQ 2.4 GHz transmitter
- 3-channel micro receiver with fail-safe security
- Patented waterproof receiver box
- Rights an overturned boat almost instantly
- 14-pole brushless outrunner motor
- Extra-long 180mm battery tray
- Secure hook-and-loop straps
- Direct drive 0.15-inch flex cable
- Quick-release motor collet
- Blue-anodized aluminium drive strut
- High-torque waterproof 2056 servo
- Blue-anodized aluminium rudder
- Stainless steel trim tabs and turn fins
- Stainless steel hex hardware
