1/10 SCALE BRUSHLESS POWER

The Velineon VXL-3s brushless power system lies at the heart of Traxxas' fastest and most powerful 1/10 scale vehicles. This extreme 11.1-volt powerplant comes installed in the compact Mini Rally chassis for outrageous performance. The result is astonishing acceleration, 55+ mph speed, and wheel-standing power at any rpm.

HIGH-TRACTION RALLY TYRES

Mini Rally VXL wears new high-traction rally tyres for outstanding grip on pavement and dirt. Internal reinforcing ribs replace conventional tyre foams for more consistent and longer lasting tread support. Mounted to new 8-spoke rally-inspired wheels, the tyres feature aggressive tread blocks for exceptional bite on loose surfaces.

OFFICIALLY LICENSED

An iconic car like the Ford RS200 requires a detailed replica body with clean flowing lines. Traxxas clipless technology holds the RS200 body tightly to the chassis with a reassuring snap to let you know it's secure. Moulded side mirrors and air scoops attach to the internal frame for extra strength and rigidity.

- 2s 3500mAh LiPo battery included
- 2-amp USB-C charger included
- Clipless body mount system
- 1/10 scale AWD drivetrain
- Direct-drive (no transmission)
- Long-wheelbase chassis
- High-torque, metal-gear 2075X servo
- Cam-operated servo saver
- Heavy-duty, double-shear suspension arms
- Full size 1/10 scale oil-filled Ultra Shocks
- White rally car wheels
- New high-traction rally tyres
- Softer rear compound tyres for balanced handling
- TQi 2.4 GHz radio system with TSM
- 40+ mph with included 2s 3500mAh LiPo battery
- 55+ mph with optional 3s LiPo battery
- **No gear changes required!**
- Rust-resistant black oxide coated hex hardware
- Sealed ball bearings
