

MINI SLASH 4X4

4WD SHORT COURSE TRUCK

Sensorless brushless motor (3300kV)

BL-2S ESC

NiMH-2S LiPo (Includes 2S LiPo battery and 2-amp USB-C charger)

£339.99

108164-1

Yellow / Pink / Orange / Green

1/10 SCALE POWER SYSTEM

The BL-2s Brushless Power System is already proven to deliver extreme power and wheel-standing torque in Traxxas 1/10 scale vehicles. Installed in Mini Slash 4X4, BL-2s power delivers lightning-quick acceleration and 30+ mph speed.

NEW EXTENDED MINI CHASSIS

Mini Slash 4X4 builds upon the radical strength of Mini Maxx's ultra-rigid, unified chassis and extends the wheelbase to 235 mm. The added 15 mm of chassis length provides a longer, more stable footprint, better high-speed stability, and a true-to-scale driving experience.

OFFICIALLY LICENSED TYRES

Mini Slash 4X4 wears all-new replica BFGoodrich Mud-Terrain TA KM3 tyres for exceptional multi-terrain traction. Internal reinforcing ribs replace conventional tyre foams for more consistent and longer lasting tread support. A new tyre compound perfectly balances grip with wear resistance for optimal traction on most surfaces.

- 2s 3500mAh LiPo battery included
- 2-amp USB-C charger included
- Clipless body mount system
- 1/10 scale 4X4 drivetrain
- Direct-drive (no transmission)
- Chassis absorbs and distributes impact energy
- Battery is protected deep in the chassis
- 1/10 scale 2056 waterproof high-torque servo
- Cam-style servo saver
- Heavy-duty, double-shear suspension arms
- Full size 1/10 scale oil-filled Ultra Shocks
- Tough energy absorbing bumpers
- Replica Maxx Slash wheels
- Internal ribbed design tyres with no foam inserts
- TQ 2.4 GHz transmitter
- 30+ mph with included 2s 3500mAh LiPo battery
- Rust-resistant black oxide coated hex hardware
- Sealed ball bearings
