### SAND CAR

#### PRO SCALE X-SERIES 2WD SAND CAR

**Velineon 1200XL brushless motor (1275kV)**

**VXL-8 ESC**

**6S-8S LiPo** (not included)

**£1,469.99**

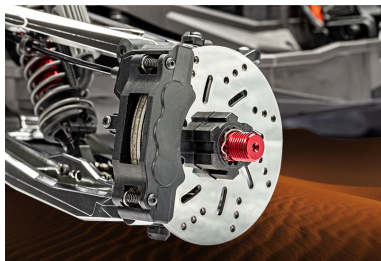

**109076-4**

Blue / Green / Orange / Red

#### X-SERIES SIZE

Both longer and wider than the legendary X-Maxx, the Pro Scale Sand Car is the largest member of the X-Series family. This immense size gives the Sand Car incredible scale detail, authentic driving dynamics, and an imposing presence. The Sand Car's huge footprint provides extra stability to blast down desert trails and fly over dunes with ease.

#### FRONT DISC BRAKES

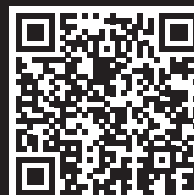

Powerful front disc brakes work in tandem with the rear motor braking for powerful and controlled 4-wheel stopping power. Sheathed cables clamp the calipers down on drilled stainless steel rotors for scale authenticity. A digital 2075 servo actuates the brakes through an adjustable linkage for greater braking precision and control.

#### HIGH-VISIBILITY WHIP LIGHTS

Colourful whip lights rise over 10 inches above the body to provide a clear and bright visibility marker when storming dunes at 55+ mph. The lights are colour-matched to the body to give the car a dramatic look. New Flex-Tech spring-loaded mounts allow the whip lights to bend without breaking in case of rollovers.

- Replica Funkco Sand Car clipless body
- Detailed interior with driver figures
- Replica engine with licensed accessories
- Included optional speed gearing for 55+ mph speeds
- TQi 2.4 GHz radio with Traxxas stability management
- Ultra-heavy-duty 8s driveline
- Direct-drive transmission
- Rear sealed 4-gear design differential
- Rock-solid motor mounting system
- GT Maxx shocks
- HD polished aluminium-finish suspension arms
- Oversized wheel bearings
- Electronic rear brakes
- Replica Funkco beadlock wheels
- 6.8" front arrow-pattern tyres
- 7.5" Rear belted paddle tyres
- Powerful 450 oz-in steering servo (2085XL)
- Sealed ball bearings
- Rust-resistant black oxide coated hex hardware
