Green / Orange

PERFORMANCE ELECTRIC RC BOAT

The Blast includes the modified power of the Stinger 20-turn motor. The Stinger is 30% faster than typical factory stock motors! The waterproof Nautica ESC provides smooth, fully proportional control for precise dockside maneuvers. The sealed waterproof design keeps the ESC dry run-after-run.

- TQ 2.4 GHz radio system
- Installed water cooling system
- Waterproof electronics
- Sealed receiver box
- Nautica waterproof electronic speed control
- Waterproof steering servo
- Stinger 20-turn motor

- Swimming pool size
- Includes boat stand
- Fully assembled, ready-to-drive right out of the box

BATTERY AND USB-C CHARGER

Fast 4-amp charging is available virtually anywhere thanks to the included 45+ watt USB-C battery charger with iD technology. The included iD-equipped 3000 mAh, 7.2 V, Power Cell NiMH battery delivers all the performance that's been engineered into your Traxxas model. Power Cell batteries deliver free-flowing power and maximum punch with premium quality construction.

100% FULLY ASSEMBLED

Blast is fully-assembled and ready-to-run with the radio system and electronic speed control installed. You'll be challenged by the waves, not an assembly manual. Blast's colorful decals are pre-applied at the factory to get you out on the water and having fun, fast!
