**EXTREME HD COMPONENTS**

Built to be the ultimate 2WD short course truck, Slash now features factory-installed Extreme Heavy Duty suspension components for game-changing durability. Key components have been redesigned and beefed-up with extra material to ensure Slash takes even the most brutal punishment in stride.

- Clipless body mounting
- 4-amp USB-C fast charger
- Traxxas Power Cell NiMH battery with iD
- 30 mph with 7-cell battery and included optional 23-tooth pinion gear
- Waterproof electronics
- Digital high-torque waterproof steering servo
- Long-wheelbase fibre-composite monocoque chassis
- Over 3.5 inches of ground clearance
- Easy access battery compartment
- Scale front and rear tube-style bumpers
- Torque-control slipper clutch
- Planetary gear differential with steel ring gear
- Heavy-duty telescoping U-joint driveshafts and yokes
- Adjustable steel turnbuckles and captured rod ends
- Precision hex hardware throughout
- Efficient rubber-sealed ball bearings
- Fully adjustable Ultra Shocks with X-ring technology
- Race-replica tyres glued on 2.2" short course wheels

**CLIPLESS BODY MOUNTING**

High-flying stunts won't upset Slash's tough clipless body. Locking tabs hold the body tightly, but release in just seconds to access the chassis. Slash's hidden latching system maximizes convenience and scale realism by removing traditional body clips which would interrupt the body's clean lines.

**BATTERY AND USB-C CHARGER**

Fast charging is available virtually anywhere thanks to the included 45+ watt USB-C battery charger with iD technology. The included 8.4 V, NiMH, 3000 mAh, Power Cell, iD battery delivers all the performance that's been engineered into your Traxxas model. Power Cell batteries deliver free-flowing power and maximum punch with premium quality construction.
