EXTREME HEAVY DUTY UPGRADES

Rustler 4X4 VXL's factory-installed Extreme Heavy Duty Upgrade Kit replaces key drivetrain and suspension components with beefed-up parts made for ultimate strength and durability. From the HD suspension arms to the steel wheel hubs, this is the strongest driveline ever offered in a Rustler.

SELF-RIGHTING

Rustler 4X4 VXL uses Traxxas' self-righting feature to keep the fun going, even when you get carried away with the wheelies or land that big trick upside down. Simply press a button on the TQi transmitter and, in most circumstances*, Rustler 4X4 VXL will be back on its wheels in just seconds and ready for more action! *3s power recommended for optimal performance.

CLIPLESS BODY MOUNTING

Rustler 4X4 VXL uses a clipless body latching system for secure mounting and fast, one-handed removal and installation. The sleek, aerodynamic body features a rugged internal structure and external rollover protection for long life and Traxxas-Tough durability.

- Factory-installed extreme heavy duty upgrade kit
- HD caster & steering blocks
- HD rear hub carriers
- MAXX-duty driveshafts
- Color-matched shock towers
- Larger sealed bearings
