£1,199.99

Announced ??, 2022
Available 27th October, 2022

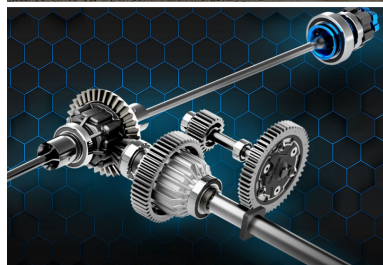

78086-4

Blue / Red / Green / Orange

BUILT FOR SPEED AND HANDLING

XRT was engineered with a focus on speed, handling, and performance. XRT's low centre of gravity, ultra-wide stance and low-profile body deliver confidence and control as XRT accelerates across the wide-open spaces to an all-out speed of 60+MPH.

PROVEN TOUGH ALL-METAL DRIVELINE

XRT performance and durability begins with its all-metal 8s driveline. Steel 4-gear differentials and steel driveshafts are joined by a high-strength extruded aluminum center shaft. It's a precision-engineered recipe that has been proven monster-truck tough in the X-Maxx.

GRAVIX™ RACE TIRES

XRT's Gravix race tires are a revolutionary new hybrid design with densely packed biting edges and sipes. They deliver outstanding grip on hard-packed surfaces along with fast and quiet-running precision.

- VXL-8s Waterproof Electronic Speed Control
- Velineon 1200XL Brushless Motor
- Traxxas Stability Management (TSM)
- TQi 2.4GHz High Output Radio System
- X-Maxx Spec 8s Drivetrain
- Fixed gear mesh system
- X-Maxx Spec 8s Differentials
- WideMaxx Suspension
- Low-CG Chassis Design
- Patent-Pending Clipless Body
- 7.4" Gravix race tires with low sidewall for sharp turn-in response and a thick center carcass resists balloon at high speed
- Powerful 365 oz-in steering servo
- Dirt evacuation channels
