VXL-8S ESC

6S-8S LiPo (not included)

£1,799.99

78097-4

Blue / Green

Available in Green or Blue

ULTIMATE DURABILITY

XRT receives substantial aluminium upgrades in all key areas of performance: suspension, chassis, drivetrain, and steering to usher in a new era of X-Track strength and durability. XRT's aluminium upgrades improve high-speed stability and precision while creating the toughest truck ever to wear the Traxxas name.

INCLUDED WIRELESS MODULE

A Traxxas Link wireless module comes standard on XRT Ultimate to take full advantage of its on-board telemetry. The free Traxxas Link app allows you to make micro-adjustments to the transmitter and view real-time telemetry data like speed, RPM, and battery voltage on your mobile device.

BELTED TYRES

XRT Ultimate's belted Gravix tyres deliver game-changing performance on the track or in the wild. The directional tread pattern provides excellent traction and runs quieter than typical off-road tyres. Lightweight belting in the carcass maintains the tyre's shape for a larger contact patch, more grip, and responsive handling at any speed.

- 6061-T6 aluminium C-hubs, steering blocks, rear hub carriers, differential housings, motor mounts, wheelie bar wheels and motor washers
- Extra-wide suspension arms
- TUBES 7075-T6 aluminium toe links
- GTX aluminium race shocks with TiN shafts
- 2085RL high-torque metal gear servo
- 7.4" Gravix belted race tyres
- Traxxas Link wireless module
- Factory-installed telemetry sensors
- Machined, hardened steel pinion and spur gear
- Full-time shaft-driven 4-wheel drive
- Ultra-low-cg chassis design
- ProGraphix clipless body
- Aggressive tuning for more power at any RPM
- TQi 2.4GHz high output radio system
- Traxxas stability management
