LIFTED PERFORMANCE

High Trail Edition TRX-4 Sport gets you up and over obstacles with a factory-installed Long Arm Lift Kit for over an inch more ground clearance than the standard TRX-4. Oversize Canyon Trail tyres ride on 2.2 black 5-spoke wheels to tame the most technical trails with extreme all-terrain traction.

SCALE ACCESSORIES

TRX-4 High Trail Edition comes fully outfitted for adventure with a tough Expedition Rack and moulded accessories. Replica snorkel, side mirrors, traction boards, fire extinguisher, jack, and fuel canisters provide extreme scale detail with inner fenders for a realistic appearance.

CLIPLESS BODY MOUNTING

New to TRX-4 Sport, the High Trail Edition's clipless body combines clean flowing lines with secure latching convenience. TRX-4 Sport's hidden latches hold tight on the trail no matter how intense the action gets, but release in just seconds to access the chassis.
