BRUSHLESS

## JATO 4X4 BL-2S

1/8 SCALE BUGGY

Sensorless brushless motor (3300kV)

BL-2S ESC

NiMH-2S LiPo (not included)

£409.95

90154-4

Red / Blue / Green / Black

### BL-2S BRUSHLESS SYSTEM

The BL-2s brushless power system ramps up the fun with up to 60% more speed and faster acceleration than comparable brushed power systems. Improved efficiency, high-speed ball bearings, and an internal cooling fan allow Jato 4X4 to run battery after battery for all-day fun. BL-2s 3300 Kv is long-lasting and requires virtually no maintenance.

### NEXT-LEVEL TOUGHNESS

Factory-installed EHD upgrades give Jato 4X4 the superior strength and durability normally associated with Traxxas' toughest off-road trucks. An ultra-rigid T-Bar reinforces the chassis with EHD shock towers to support the suspension. Huge Maxx-Duty driveshafts transfer every ounce of the motor's torque to the wheels with unsurpassed strength.

### TRACK-READY HANDLING

Jato 4X4 sits low and wide, concentrating its weight below the driveshafts for exceptional handling and perfect weight distribution. Extra-long GTR shocks in the front and rear maximize traction by keeping Jato 4X4's new Sledgehammer buggy tyres in constant contact with the ground.

- Clipless body and high-downforce wing
- EHD c-hubs, axle carriers and steering blocks
- Heavy duty one-piece camber & toe links
- Chassis-mounted 2075 servo
- Dual bellcrank design with integrated servo saver
- Low-CG design chassis
- T-Bar chassis stiffener
- Heavy duty shock towers
- Reinforced shock mounts
- Heavy duty suspension arms
- Threaded oil-filled GTR shocks
- Sealed steel gear front and rear differentials
- Heavy-duty slipper clutch
- 3 inch grey buggy wheels
- Sledgehammer tyres
- TQ 2.4 GHz radio system
- Rust-resistant black oxide coated hex hardware
- Sealed ball bearings
