540XL TORQUE

Stampede 4X4 VXL packs the same Velineon 540XL brushless motor found in the Maxx extreme monster truck. It's the largest motor we've ever offered in a truck this size. The Velineon VXL-3s speed control rolls out the power smoothly utilizing large 6.5 mm connectors and an integrated cooling fan for fast, reliable fun.

EXTREME HEAVY DUTY UPGRADES

Along with added power, Stampede 4X4 VXL also gets a massive boost in strength with its factory-installed Extreme Heavy Duty Upgrade Kit. The kit replaces key drivetrain and suspension components with beefed-up parts made for ultimate strength and durability. From the HD suspension arms to the steel wheel hubs, this is the strongest driveline ever offered in a Stampede.

EXTREME SLEDGEHAMMER GRIP

The 5.3" tall Sledgehammers lift Stampede skyward for superior ground clearance and a menacing stance. The open-block tread design clears away mud and debris for unrivaled traction on loose surfaces. Sledgehammer tyres come pre-glued with performance foam inserts and they're TSM-rated for speeds of 60 mph and beyond.

- Factory-installed extreme heavy duty upgrade kit
- HD caster & steering blocks
- HD rear hub carriers
- MAXX-duty driveshafts
- Color-matched shock towers
- Larger sealed bearings
- Steel wheel hexes
- 540XL torque
- Torque-biasing center drive
- Clipless body mounting
- Up to 60+ mph with 3s LiPo battery
- TQi 2.4 GHz high output radio system
- Waterproof electronics
- Traxxas stability management (TSM)
- Chassis-mounted 2075 servo
- Oil-filled Ultra shocks
- 2.8" black chrome wheels & 5.3" Sledgehammer tyres
- Sealed ball bearings
- Rust-resistant Hex hardware
