CLEARANCE

1979 BRONCO

HIGH TRAIL™
EDITION

HIGH TRAIL EDITION

Large 2.2" slotted mag wheels and Canyon Trail tires tame even the most technical trails to extend your scale adventures farther than ever before. The factory-installed Long Arm Lift Kit raises F-150 High Trail™ Edition over an inch taller for superior ground clearance.

EXTENDED WHEELBASE
18.2" (336mm)

1979 BRONCO (312mm)

EXTENDED 336MM WHEELBASE

F-150's extended steel ladder frame lengthens the wheelbase to 336mm to capture the pickup's real-world proportions perfectly. A longer wheelbase also translates into greater climbing stability and a smoother, more stable ride over rough terrain.

CLIPLESS BODY MOUNTING

The clipless body's hidden latching system gives F-150 High Trail Edition clean, flowing lines for new level of scale realism and convenience. On the trail, F-150's clipless body holds tight when you need it, but releases in just seconds to access the chassis.

- Factory-Installed Long Arm Lift Kit
- Clipless F-150 Ranger XLT Replica Body
- Extended Wheelbase
- Twin-Tube Roll Bar with Chrome Light Buckets
- 2.2in Slotted Mag Wheels
- S1 Compound Canyon Trail Tyres
- TQi 2.4GHz Radio System with Cruise Control
- 3s Power System
- Waterproof Electronics
- High/Low Range Transmission
- T-Lock Remote Locking Differentials
- Portal Axles
- Extended Steel Frame Rails
- High-Torque Metal Gear Servo
- Aluminium GTS Oil-Filled 110mm Shocks
