Black / White / Red / Blue

#### THE RIGHT SIZE FOR FUN

TRX-4M is the perfect size to fit in a backpack for fun on the go. It's small, powerful, and maneuverable so just about any space becomes an instant trail or crawling course. Whether it's a mountain of books indoors or a rock garden in the backyard, TRX-4M is always ready for big fun and adventure.

#### ALL-TERRAIN VERSATILITY

TRX-4M is equipped to take on tough off-road terrain with grippy soft-compound tires, precision-engineered 4-link suspension geometry, and smooth oil-filled shocks. High center ground clearance, big approach angles, and low CG give the TRX-4M impressive capability everywhere it goes.

#### 45° STEERING ANGLE

A full 45° steering angle gives TRX-4M an exceptionally tight turning radius and extreme maneuverability in small spaces where every inch counts. A heavy-duty 2065T steering servo delivers powerful steering authority, even on thick carpet.

- Clipless body mounting system
- Moulded fender flares
- High-Performance tyres
- Detailed 1.0" wheels
- LED lighting
- 2S LiPo battery and 2-Amp USB fast charger with iD
- Triangulated Four-Link suspension
