LIFTED PERFORMANCE

TRX-4MT's factory Installed Long Arm Lift Kit and large Terra Groove tires raise the centre ground clearance 88% for an authentic monster truck stance. Eight individual shocks on revised shock mounts with extended links ensure the truck maintains its carefully tuned suspension geometry for peak performance.

TERRA GROOVE TYRES

Mounted on chrome deep-dish wheels with beadlock trim, Terra Groove tyres provide excellent traction with an aggressive tread pattern that bites into loose surfaces. The sticky rubber compound is also great on carpet, grass, and pavement.

DETAILED CLIPLESS BODY

The rugged ABS clipless body holds tight over jumps but releases in just seconds with a hidden latching system to preserve its clean lines. Working headlights and beautifully detailed chrome accessories complement TRX-4MT's high gloss paint for authentic show-stopping looks.

- Licensed 1979 Chevrolet K10 ABS body
- LED headlights
- Revised shock towers
- Fully waterproof for all-weather fun
- Three drive modes
