

G.T.POWER[®]

Electronic Switch

Function:

This device used a high-power electronic switches MOST pipe, the device can be used as electronic ignition, smoke and other power electronic devices pull switch, lighting control systems, switches, camera shutter control, and other control power, current, signals switch occasions

Product Features:

Power supply control section using the receiver for power: **DC 4-8.4V**

Controlled power supply input section
JST Female: **DC 0-40V**

Output JST Male Charged capacity: **7A**
maximum **10A** instantaneous

Size: 25mm * 10mm * 5mm

Weight: 8g

Made In China
